## DEDICATION CEREMONY

Dear Friends:

So much has been accomplished with the New Bern Firemen's Museum over the past years. It is a wonderful story of how the community, donors and volunteers have come together to enhance, build and create one of New Bern's most entertaining and historic Museums in our area.

In a few short years, the Firemen's Museum has taken on new life in a new location — the historic 1928 Firehouse — and created a modern attraction for families and visitors from all parts of the world. It has been a challenge to restore the firehouse with its leaky roof, rotting windows, torn floors and empty bays and to create a modern air conditioned, elevator access historically accurate museum that houses and preserves the most important and historic artifacts of New Bern firefighter history.

Over several years and thousands of paid and voluntary hours of work, significant donations and city support, totaling over \$1 million dollars has made this all possible. New Bern now has one of the premier fire museums in the country. Added to its standing, is the renovation of the old chief's quarters, the addition of an educational children's area and stunning outdoor Honor Park and Bell Tower. We have accomplished so much and look further successes and programs in the future.

We thank you all for your time, support and commitment to this wonderful accomplishment. We look forward to your continued support and involvement as the Museum continues to contribute to our community.

Nancy Mansfield, Chairman  
Friends of the New Bern Firemen's Museum
